**Expanded Media Master of Arts**

| Admission Requirements | 1. Semester | 2. Semester | 3. Semester | 4. Semester | Perspective |
|---|---|---|---|---|---|
| • **A successfully completed Bachelor's or Diploma degree (210 CP or 180 CP) in the field of media design, media production, media development, media conception, or a related discipline, as well as a suitability assessment.**<br><br>**For students with a 210 CP Bachelor's degree, the standard period of study is 3 semesters. For students with a 180 CP Bachelor's degree, the standard period of study is 4 semesters. The program can be started in either the winter or summer semester.**<br><br>• **Additional requirement for students with a Bachelor's or Diplom degree comprising at least 180 CP: they must complete an Industrial Placement semester worth 30 CP as an additional semester, in order to reach the 300 CP required for a consecutive Master's degree. Alternatively, a semester abroad in a relevant study program worth 30 CP or a research semester can be completed. If the completed Bachelor's or Diploma degree is in a media-related program not listed above, further admission requirements may be imposed, such as the successful completion of specific modules from the Bachelor's programs of the Department of Media.** | Experience in Media,<br>5 CP<br><br>Expanded Media Project 1,<br>15 CP<br><br>Conception, application, and reflection of professional competencies in interdisciplinary, inter- and trans-media project work (group work).<br><br>Electives,<br>10 CP<br>** | Media Science and Scientific Methods,<br>5 CP<br><br>Expanded Media Project 2,<br>15 CP<br><br>Conception, application, and reflection of professional competencies in the chosen specialization: Expanded Storyworlds, Expanded Sound & Music, Expanded Realities.<br><br>Electives,<br>10 CP<br>** | Industrial Placement,<br>30 CP<br><br>-<br>(required for students with a 180 CP Bachelor's degree.) | Master Project,<br>30 CP<br><br>-<br>master´ thesis with colloquium | The Master's degree qualifies graduates for<br><br>The conception, production, and implementation of complex media projects in specialized areas of:<br>• Expanded Storyworlds<br>• Expanded Sound & Music<br>• Expanded Realities<br>• Advanced development, design, and leadership roles in the field of media innovation, media conception, and media production<br>• Artistic and academic work, and qualifies for doctoral studies<br><br>* Topics include, for example:<br>Expanded Museum, Expanded Theatre, Expanded Festival, Expanded Media Campaign, u.a.<br><br>**Modul Electives 2nd and 3rd Semester<br>Acquisition of advanced and extended professional competencies through participation in two freely selectable modules from the Expanded Media program.<br><br>Alternatively, interdisciplinary qualifications can be acquired by choosing modules from all Master's programs within the Department of Media as well as from courses in the social and cultural sciences. |

CP: The sizes of the modules correspond to an average study and learning effort. For successfully completed modules, credit points are awarded – as a general rule 60 CP per year.
